Renewables 100
Policy Institute

Access the tools, knowledge, and network you need to close solar deals, increase your bottom line, and grow your solar business. The [Solar Executive MBA](#) is technical, rigorous, and challenging. It's the most intense six-week course you'll ever find but also the most valuable. We developed it for leaders who are responsible for the financial details that drive solar projects.

A New Approach for the Fast Estimation of the Solar...

Researchers have developed a new approach for calculating fast and accurate the solar energy potential of surfaces in the urban environment. The new approach can significantly help architects and urban planners to incorporate photovoltaic (solar...
