Solar Power Breakthroughs Are Coming So Fast We've...

Two new records were announced for perovskite-silicon solar cell efficiency last Thursday. The news didn't get much attention, perhaps because solar power records are being broken so fast no one sticks out.

Wall Street Is Falling Out of Love With a Once-Coveted...

For years investors were willing to pay more for shares of natural gas utilities compared to electric ones. That's no longer the case. In the past few days, electric utility valuations blew past those for gas, a sign that investor confidence in...

Even in Coal-Heavy Kentucky,

Corporations Can't Stay...

In Kentucky, coal still generates the vast majority of electricity: 75 percent in 2018, according to the U.S. Energy Information Administration. That dominance is waning, however. Last year, renewable-powered electricity in the U.S. surpassed...

EVENTS:

[SOLAR 20/20](#) June 23-26, 2020 at George Washington University in Washington D.C. in conjunction with the U.S. Department of Energy [Solar Decathlon](#).

The [National Solar Tour](#) hosted by ASES and Solar United Neighbors, October 3-4, 2020 and throughout the month of October is the largest grassroots renewable energy event in the nation.

The March Webinar in the [ASES Webinar Series](#) will cover the recorded content from the SOLAR 2019 WISE Forum and Luncheon. [Register for the webinar now!](#) Please note, ASES Members receive a free promo code, [join today](#).

[Solar World Congress](#) from December 2-4, 2020 Melbourne, Australia, where the first ever ISES Solar World Congress took place in 1970, will be celebrating "ISES at 50 - The Century of Solar".

ASES PROGRAMS:

- [Solar Today Magazine](#)
- [ASES Webinar Series](#)
- [National Solar Tour](#)
- [Tiny Watts](#)
- [SOLAR 20/20: Renewable Energy Vision](#)

The power of community

Membership Benefits

ases.org/join
ases.org/renew

ASES Webinar Series

ASES members receive free priority access to our Webinar Series. The series will vary from technical content to general information pertaining to solar and renewable energy.

National Solar Conference

Members receive discounts on attendance for the National Solar Conference, a unique blend of science, business, policy and industry.

Solar Today Magazine

Members receive the quarterly magazine that delivers information on lifestyle trends, technology and analysis to the sustainability community.

ASES Technical Divisions

Access to any division is open to ASES Business, Professional, Student and Life members with similar interests who can network and exchange information.

Clean Energy Credit Union

Members get access to join CECU, a new financial institution focused solely on providing loans and investment opportunities in renewable energy and sustainability.

Tiny Watts

Access to a web-based platform to create a nationwide community of "tiny watts" – very small applications of solar PV and solar thermal.
