Can Rooftop Solar Thrive in an Economic Downturn?

Savvy business leaders must plan for the unexpected even when business is good. So it was that, when Sunrun briefed investors last month on its record solar installations in the fourth quarter of 2019, CEO Lynn Jurich fielded a question from...

Solar Innovation Can Continue With Social Distancing

A little social distancing isn't enough to stop solar innovation! The American-Made Solar Prize Round 2 Remote Set! Demo Day is happening right now. Today, March 27, 20 semifinalist teams from across the country are vying for the chance to be selected as a finalist, winning \$100,000 in cash prizes and \$75,000 in support vouchers to continue to the final phase of competition.

[Watch their pitch videos](#) and decide who you're rooting for. Then, join the U.S. Department of Energy and the National Renewable Energy Laboratory on Monday, March 30, at 3:30 p.m. ET for the [live Finalist Announcement webinar](#). You won't want to miss this!

Check Your Electricity Rates By State

The monthly Choose Energy® Rate Report shows you just how much energy costs can vary, using electricity prices from the U.S. Energy Information Administration (EIA) in all 50 states. Information on recent rates and fluctuations may help you...

Membership Benefits

[ases.org/join](#)
[ases.org/renew](#)

ASES Webinar Series

ASES members receive free priority access to our Webinar Series. The series will vary from technical content to general information pertaining to solar and renewable energy.

National Solar Conference

Members receive discounts on attendance for the National Solar Conference, a unique blend of science, business, policy and industry.

Solar Today Magazine

Members receive the quarterly magazine that delivers information on lifestyle trends, technology and analysis to the sustainability community.

ASES Technical Divisions

Access to any division is open to ASES Business, Professional, Student and Life members with similar interests who can network and exchange information.

Clean Energy Credit Union

Members get access to join CECU, a new financial institution focused solely on providing loans and investment opportunities in renewable energy and sustainability.

Tiny Watts

Access to a web-based platform to create a nationwide community of "tiny watts" – very small applications of solar PV and solar thermal.
